

ULTRAFLO Heavy Duty 205L Rotary Barrel Drum Pump

Product Code:

AF-AP-1321

Product Description:

- Solid aluminium construction
- Approx. 3 revolutions per litre
- 3 piece steel suction pipe & 2 bung adapter
- Suitable for petrol, diesel & motor oils

ULTRAFLO Heavy Duty 205L Rotary Barrel Drum Pump with Hose & Nozzle

Product Code:

AF-AP-1321H

Product Description:

Suits 205L drums

Features:

- Solid aluminium construction
- Approx. 3 revolutions per litre
- Comes with 2m hose and nozzle
- 3 piece steel suction pipe & 2 bung adapter
- Suitable for petrol, diesel & motor oils

ULTRAFLO 20L Oil Pump with Hose

Product Code:

AF-AP-1336B

Product Description:

Hand Operated 20L Oil Pump With Hose

ULTRAFLO Hand Operated Oil Pumps are easy to use Oil Pumps built from high quality components to ensure smooth pumping action. They can provide 1 litre of oil in approximately 14 stroke.

Features:

- Easy downstroke displacement
- High quality components to ensure smooth pump action
- 1.5M of antikink hose fitted with antidrip nozzle & drain back nozzle holder
- Telescopic extension
- Approx. 14 strokes per litre
- Suitable for Engine, Gear, Diff & Hydraulic Oils

ULTRAFLO Standard 205L Rotary Barrel Pump

Product Code: AF-AP-2220

Product Description:

The ULTRAFLO Standard Rotary Drum Pump is suitable for almost all motor oils and Diesel but is not recommended for petrol (unleaded or leaded) and gear oil due to its make. The ULTRA FLO Standard Rotary Drum Pumps come with a 3piece suction pipe and a 2" bung adaptor. Additionally, you can also order a standard 205L Rotary Barrel Pump complete with a hose and a nozzle.

- Solid cast iron construction
- Approx. 3 revolutions per litre
- 3 piece steel suction pipe & 2 Bung Adaptor
- Suitable for most motor oils & diesel Not recommended for petrol or gear oil

ULTRAFLO Refueling Pump Only

Product Code:

AF-FP342000 12V
AF-FP347000 24V

Product Description:

Powerful, dependable, and economical, Vane pump for DIESEL FUEL ONLY. They are available with 12V and 24V direct current motors

Features:

- Vane pump with a rotor
- Builtin-bypass valve incorporated into the pump body
- Duty Cycle: 30min
- Flow Rate: up to 50LPM
- Noise level: below 70dB
- Diesel transfer only

ULTRAFLO K44 4 Digit 1" Flow Meter

Product Code:

AF-FP-563000

Product Description:

The ULTRAFLO Diesel Flow Meter has 1" BSP inlet and outlet ports. These Diesel flow meters are up to 99% accurate providing the most accurate information for all your lubrication needs.

Features:

- Suitable for diesel, kerosene & antifreeze
- Nutating disk meters
- Inlet: 1" BSP(f)
- Outlet: 1" BSP(f)
- Mechanical gear meter with 1.0% accuracy
- Field calibration possible
- Flow Rate: 20120LPM (527GPM)
- Suitable for gravity feed or pump applications
- 3 & 4 digit mechanical display
- Max. Working Pressure: 3.5Bar (50PSI)s

ULTRAFLO 1" Fuel Filter

Product Code: AF-UF-FF25-1

Product Description: 1" Fuel Filter

Unit: EA

Features:

- Economic fuel filters for use in gravity, hand, air, or electrical pump applications
- Includes a 10micron fuel filter, drain valve & replaceable bowl
- Rust & weather resistant
- 1" BSP inlet & outlet
- Max. Working Pressure: 10 Bar/150PSI
- Suitable for Diesel and Unleaded Fuel

205L Oil Distribution Kit 3:1 Ratio Pump, Metered Oil Gun

Product Code:

AF-0A205K3

Product Description:

205L Oil Distribution Kit 3:1 Ratio Pump, 4m x 1/2" Dispensing Hose, Metered Oil Gun and Air Regulator

Features:

- RAASM 3:1 Ratio Drum Pump
- Flow Rate: 14 LPM
- 4M Hose Kit
- Metered Oil Control Gun
- 1/4" Regulator
- 10 Year Warranty

ULTRAFLO PA1 240V Diesel Transfer Pump - 60 LPM

Product Code:

AF-E-210750

Product Description:

240V Self-priming Rotary Vane Pump

Features:

- 240V Self-priming Rotary Vane Pump
- Builtin bypass valve & builtin strainer
- Continuous Duty Cycle
- Inlet: 1" BSP(f)
- Outlet: 1" BSP (f)
- Flow Rate: 60/100LPM
- Ideal for bulk diesel fuel transfer application

Fuelshot 1" Hi Flow Truck Nozzle

Product Code:

AF-FS-AL120

Product Description:

Fuelshot 1" Hi Flow Truck Nozzle

Features:

- Automatic shutoff diesel nozzle
- For high flow transfer of up to 120LPM
- Suitable for pump applications only
- Complete with 1" BSP(f) Swivel
- Ideal for highflow mobile pumps, truck bus, or fleet operations

Fuelshot Manual Diesel Nozzle with Black Cover

Product Code:

AF-FS-ML2

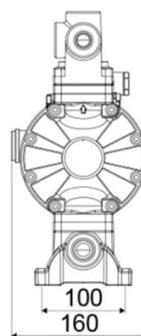

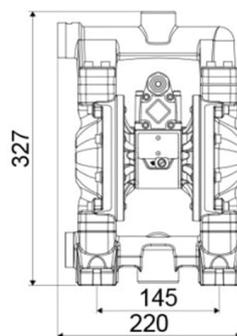

Product Description:

Fuelshot Manual Diesel Nozzle with Black Cover

Features:

- Flow Rates: up to 100LPM
- Inlet: 1" BSP(f) swivel
- Suitable for gravity feed systems
- Ideal for farm tank and smaller fuel dispensing applications

1/2" Polypropylene Diaphragm Pump

Product Code:

AF-RA-2B3-16117EA5

Brand: RAASM

Features:

- Polypropylene body construction
- Fluid Inlet: 1/2"
- Fluid Outlet: 3/4": Flow rate: up to 60LPM
- Fluid: AdBlue/DEF
- 10 year warranty
- EPDM Membrane

RAASM 3/4" Series Aluminium Pump 70L/min

Product Code: AF-RA-3C1/16111NHH

Brand: RAASM

Features and Benefits:

- Maximum flow rate of 70 l/min for high-volume fluid transfer
- Handles fluids with high viscosity and suspended solids for versatile applications
- Self-priming for easy operation
- Durable and corrosion resistant diecast aluminium for long service life in harsh environments
- Simple design with few moving parts for easy maintenance and repair
- Backed by a 10-year warranty for peace of mind
- Suitable for a wide range of fluids including oil, waste oil, coolant, and diesel

The RAASM Diaphragm Pump 3/4" Series Aluminium Pump 70 LPM is a high-performance aioperated diaphragm pump. It can be partially or completely immersed in a fluid, making it ideal for pumping fluids from tanks, drums, and other containers. The pump can also be used to transfer fluids between different containers. The RAASM Diaphragm Pump is backed by a 10-year warranty, so you can be confident that it will last for many years to come.

Specifications:

Compression Ratio----- 1:1

Flow Rate----- 70 L/min

Max Pressure----- 8 Bar

Max suction lift ----- dry column 5m wet column 7.5m

Max pumpable size ----- 1.5mm

Noise level----- 75dB

Weight ----- 6.3Kg

Suitable for ----- New Oil, Water, Coolant, Waste Oil & Diesel

RAASM 1" Series Aluminium Pump 170L/min

Product Code: AF-RA-3C1/26111NHH

Brand: RAASM

Product Description:

The RAASM Diaphragm Pump - 1" Series Aluminium Pump 170 LPM is a versatile and powerful air-operated diaphragm pump that is ideal for a wide range of demanding applications. It is made of durable and corrosion-resistant die-cast aluminum and is ATEX certified for use in hazardous environments.

With a maximum flow rate of 170 liters per minute, the **RAASM Diaphragm Pump** can handle high volumes of fluid transfer. It can also pump fluids with high viscosity and suspended solids. The pump is self-priming, so it can be used with a variety of fluids without the need for a priming tank. It also has a simple design with few moving parts, which makes it easy to maintain and repair.

Features and Benefits:

- Maximum flow rate of 170 l/min for high-volume fluid transfer
- Handles fluids with high viscosity and suspended solids for versatile applications
- Self-priming for easy operation
- Durable and corrosion resistant diecast aluminium for long service life in harsh environments
- Simple design with few moving parts for easy maintenance and repair
- Backed by a 10-year warranty for peace of mind
- Suitable for a wide range of fluids including oil, waste oil, coolant, and diesel

The RAASM Diaphragm Pump - 1" Series Aluminium Pump 170 LPM is a high-performance air-operated diaphragm pump. It can be partially or completely immersed in a fluid, making it ideal for pumping fluids from tanks, drums, and other containers. The pump can also be used to transfer fluids between different containers. The RAASM Diaphragm Pump is backed by a 10-year warranty, so you can be confident that it will last for many years to come.

Specifications:

Compression Ratio----- 1:1

Flow Rate----- 170 L/min

Max Pressure----- 8 Bar

Max suction lift ----- dry column 5m wet column 7.5m

Max pumpable size ----- 3mm

Noise level----- 75dB

Weight ----- 12Kg

Suitable for ----- New Oil, Water, Coolant, Waste Oil & Diesel

RAASM 1 1/4" Series Aluminium Pump 200L/min

Product Code: AF-RA-3C1/30111NHH

Brand: RAASM

Product Description:

The RAASM Diaphragm Pumps are designed and manufactured for Pumping a wide range of fluids. They can be used in heavy-duty conditions such as places with high humidity or a potentially explosive atmosphere.

Features and Benefits:

- High-performance air-operated diaphragm pump
- Made of durable and corrosion-resistant die-cast aluminium
- ATEX certified for use in hazardous environments
- Maximum flow rate of 200 l/min
- Can handle fluids with high viscosity and suspended solids
- Self-priming
- Simple design with few moving parts
- Easy to maintain and repair
- Long service life
- Wide range of applications
- 10-year warranty
- Suitable for oil, waste oil, coolant & diesel

The RAASM Diaphragm Pumps - 1 1/4" Series Aluminium Pump 200 LPM can be partially or completely immersed in a fluid, making them ideal for pumping fluids from tanks, drums, and other containers. The pumps can also be used to transfer fluids between different containers.

Compressed air is a more suitable power source for the RAASM Diaphragm Pumps than electric power, especially in places with a potentially explosive atmosphere. This is because compressed air does not produce sparks, which could ignite flammable fluids. The RAASM Diaphragm Pumps meet ATEX requirements and can be used in these types of environments.

To start or stop the pump, simply open or close the delivery valve. The structure and internal composition of the RAASM Diaphragm Pumps minimizes wear on the seal parts, which ensures lasting efficiency.

Specifications:

- Compression Ratio----- 1:1
- Flow Rate----- 200 L/min
- Max Pressure----- 8 Bar
- Max suction lift ----- dry column 5m wet column 7.5m
- Max pumpable size ----- 3mm
- Noise level----- 75dB
- Weight ----- 15Kg
- Suitable for ----- New Oil, Water, Coolant, Waste Oil & Diesel

RAASM 1½" Series Aluminium Pump 480L/min

Product Code: AF-RA-3C1/40111NHH

Brand: RAASM

Product Description:

The RAASM Diaphragm Pumps 1½" Series Aluminium Pump 480 LPM are a highperformance, aioperated diaphragm pump that is ideal for a wide range of demanding applications. The pumps are made of diecast aluminium for durability and corrosion resistance, and they are ATEX certified for use in hazardous environments. The RAASM Diaphragm Pump 1½" Series Aluminium Pump 480 LPM have a maximum flow rate of 480 l/min, which makes them a good choice for applications that require a high volume of fluid transfer. The pumps can also handle fluids with high viscosity and suspended solids. The RAASM Diaphragm Pumps are selfpriming, so they can be used with a variety of fluids without the need for a priming tank. The pumps also have a simple design with few moving parts, which makes them easy to maintain and repair.

Specifications:

Compression Ratio----- 1:1

Flow Rate----- 480 L/min

Max Pressure ----- 8 Bar

Max suction lift ----- dry column 5m wet column 7.5m

Max pumpable size ----- 5.5mm

Noise level----- 78dB

Weight ----- 21.5Kg

Suitable for ----- Oil (Including Mineral & Vegetable Oils),
Water, Coolant, Abrasive Fluids & Diesel

RAASM 2" Series Aluminium Pump 610L/min

Product Code: AF-RA-3C1/50111NHH

Brand: RAASM

Features and Benefits:

- Can be partially or completely immersed in a fluid for pumping fluids from tanks, drums, and other containers
- Compressed air power source is more suitable for hazardous environments than electric power
- Simple to operate by opening or closing the delivery valve
- High flow rate of 610 litres per minute for high-volume fluid transfer
- Self-priming for easy operation
- Simple design with few moving parts for easy maintenance and repair
- Backed by a 10-year warranty for peace of mind
- Suitable for a wide range of fluids including oil, waste oil, coolant, and diesel

The RAASM Diaphragm Pump 2" Series Aluminium Pump 61 LPM is a high-performance airopowered diaphragm pump. It can be partially or completely immersed in a fluid, making it ideal for pumping fluids from tanks, drums, and other containers. The pump can also be used to transfer fluids between different containers. The RAASM Diaphragm Pump is backed by a 10year warranty, so you can be confident that it will last for many years to come.

Specifications:

Compression Ratio----- 1:1

Flow Rate----- 610 L/min

Max Pressure----- 2-6 Bar

Max suction lift ----- dry column 5m wet column 7.5m

Max pumpable size ----- 6.5mm

Noise level----- 82dB

Weight ----- 43Kg

Suitable for ----- Oil (Including Mineral & Vegetable Oils),
Water, Coolant, Abrasive Fluids & Diesel

Fuelshot Slump Gun

Product Code:

AF-SG-1189

Product Description:

FUELSHOT Slump Gun are robust slump guns ideal for use with concrete trucks or any other applications where high pressure wash down is needed.

- For use with concrete trucks or any other applications where high pressure water wash down is needed
- Robust, case hardened steel for extra strength needed in rugged applications

ULTRAFLO Standard Pistol Grip Grease Gun - 450g

Product Code:

AF-AP-1152-450:

Models Available:

ULTRAFLO Standard Duty Pistol Grip Grease Gun 450g (AP1152450)

Specifications:

- Complete with 300mm flexible outlet
- 4 jaw coupler
- Fitted standard with air valve & bulk filter
- Air bleeder valve & bulk filter fitted
- Pressure: up to 4,500 PSI
- Burst Pressure: 10,000 PSI
- Applications: Agriculture, Earthmoving, Truck & Bus, and Industrial
