to the Marine, Mining and Construction Industries*

EXTENSIVE RANGE

**HENDERSON
HOSE & FITTINGS**

Who we are...

Henderson Hose & Fittings opened its doors to the maritime precinct of Henderson in 2004 with only two employees. Today our staff complement has grown to seven and we proudly serve a client base that includes large and small companies in the defence, government, automotive, industrial, mining and marine manufacturing industries. At Henderson hose we pride ourselves on sourcing only the very best products from around the globe. Our bulk buying power allows us to offer a variety of extremely cost-effective hosing solutions and we are committed to maintaining stock levels that ensure off-the-shelf service for those occasions when you simply cannot wait.

What we provide...

In an on-going effort to grow and expand not only our business, but also the skill sets of our staff members, we invest in continual product education. This means that any one of our multi-skilled employees are able to take ownership of your enquiry, from start to finish. At Henderson Hose & Fittings we believe that perfection amounts to a whole lot of small things done well. It is this exceptional level of attention to detail that allows us to tend to our clients' needs with an unsurpassed level of urgency. Our commitment to client service, combined with our ability to identify, supply and expedite goods and services within Australia with minimal fuss and downtime, has made us a household name when it comes to quick, efficient hosing and fitting solutions.

Custom Fabrication

As part of our commitment to providing the best possible products and service we offer custom made hose assemblies and fabrication for all industries.

We have the scope to crimp hoses from 1/4" in size up to and including 6" hose with our BetaSwage hydraulic press.

We also offer pipe threading as a service with our Rigid pipe threading machine which can thread pipe size 1/4" up to and including 4" in BSPT or NPT.

We also offer MIG/TIG welding as a service and custom fabricate pipe spools for the hire industry.

Testing

As every client is unique with their requirements we have the equipment and capability to manage, assemble and hydrostatically test hose and fabricated items to AS 1180.5 and for code hose assemblies test to AS2683.
